## Trigelle Unveils New Designs for Spring 2006

---

FOR IMMEDIATE RELEASE

June 1, 2005, Brea, CA – Trigelle will debut its Spring 2006 line to wholesalers beginning June 15. The Spring line will feature two distinct collections - Tropical Asia and Savannah Chic. Spring 2006 marks the fourth collection to be released by Trigelle since the line premiered with their Fall 2004 collection.

Orders for the Trigelle Spring I collection, Tropical Asia, will deliver between December 1, 2005 and February 28, 2006. Tropical Asia melds vibrant colors and prints with elegant styling details such as Mandarin collars, frog closures, printed and embroidered Asian motifs, and kimono sleeves. Striking colors like white, punch, papaya, seafoam, coconut and chestnut define the collection. Accessories available with the collection include fabric belts and a multi-use silk sash.

Trigelle's Spring II Collection, Savannah Chic, will deliver between March, 1 2006 and May 31, 2006. Trigelle's second delivery is inspired by African patterns trending heavily in the contemporary market. Savannah Chic will feature placed embroidery showcasing African motifs, African-patterned sweaters, and earthy details such as wooden buttons and leather zipper pulls. Gold accents create pop throughout the collection in the piping, lining, and contrasting thread. Polo tops take a new twist with bias striping chosen over traditional horizontal stripes. Colors such as Bone, Azalea, Meadow, Sable, and Gold extend the theme of Savannah Chic.

Expanding their offering of outerwear, Trigelle will release a two-piece rain suit with their Spring collections. The rain suit will be constructed in lightweight breathable nylon with a waterproof finish. For the initial season, the rain suit will be offered in Black and Stone with pants available in regular and long lengths.

Furthering Trigelle's mission to provide fashionable and functional designs, the Spring 2006 collections feature cutting-edge silhouettes that lend a contemporary look to the line. Introduced in the Spring lines are the "new" twinset - a camisole with matching shrunken cardigan, kimono tees, colorblocked crewneck raglans, bomber jackets, cargo skorts, shorts and capris, hot shorts with a 5" inseam, 16" skorts, a 20" pencil capri pant, tunic polos, racerback tops, and the multi-use sash. In addition to the new designs, Trigelle will offer a full range of their proven silhouettes, including the bermuda short, capri pants, long trousers and 17 1/2" skorts. The Spring collections are constructed with Trigelle's signature high-quality, performance-enhancing fabrics including Bamboo cotton sweaters, textured stretch twills, quick-dry and UV protective pointelle jersey and

pique, quick-dry modal jersey, stretch dropneedle twills, and textured stretch twills.
